

**DEPARTMENT OF GENETICS
&
HUMAN GENETICS INSTITUTE OF NEW JERSEY**

RESEARCH SEMINAR

**“A Drug with Opposite Sex Effects in
Behavioral and Molecular Signatures of
Memory”**

Raül Andero Galí
Institute of Neuroscience
Autonomous University of Barcelona
Barcelona, Spain

Dr Andero will explain unpublished data on differences in the neurobiology of fear memory consolidation between male and female mice. These results may help in the research towards a sex-dependent treatments for fear-related disorders.

Noon, Thursday October 24, 2019
Auditorium, Life Sciences Building,
145 Bevier Road, Busch Campus, Piscataway, New Jersey
Host: Gleb Shumyatsky, Phone:848-445-1223, Email: gleb@dls.rutgers.edu
